**Incorporate detailed images onto your work and expand your ideas  
of what you thought was possible with clay imagery!**

This one day workshop will cover a variety of different ways to incorporate photographs, copy machine images, text and drawings onto your ceramic pottery or sculpture. Anything that can be photo-copied can be easily transferred to your ceramic work using either Toner Transfer Techniques or Iron Transfer Decals. Participants should bring photos, or any other images they want to transfer, 2 or more pieces of leather hard clay and 2 or more finished glazed pieces. Please bring a lunch.
